

SUMMARY

First-year B.Tech Civil Engineering student at Harcourt Butler Technical University and JEE Advanced qualifier with a strong foundation in computer vision, embedded systems, and quantitative problem solving. Demonstrated ability to lead cross-functional teams and deliver technical projects end-to-end. Actively exploring opportunities at the intersection of engineering, technology, and quantitative finance.

EDUCATION

B.Tech in Civil Engineering

Harcourt Butler Technical University, Kanpur

Aug 2025 – Apr 2029

Class XII (2024)

85% Overall | 88% Best 5

Class X (2022)

93.6% Overall | 94.6% Best 5

SKILLS

Programming: Python, C, SQL

Tools & Technologies: MS Excel, Git, GitHub, Arduino IDE

Libraries: OpenCV, MediaPipe

Core Areas: DBMS, Computer Vision, Embedded Systems, Basic Electronics

Soft Skills: Leadership, Strategic Thinking, Communication, Active Listening

PROJECTS

Hand Gesture & Voice Controlled RC Car – Personal Project

2025

- Led development of an Arduino-based RC car integrating real-time gesture recognition (OpenCV + MediaPipe) and voice control — fully functional prototype delivered within a 4-week timeline.
- Designed complete circuit architecture including sensor integration, motor driver interfacing, and power management.

RC Plane Development – Team Project

2025

- Collaborated on design, assembly, and flight testing of a remote-controlled aircraft, working with lightweight structural materials and aerodynamic configuration systems.

AI Face Rating & Analysis Application – Personal Project

2026

- Built a computer vision application using OpenCV and MediaPipe to perform facial feature analysis including symmetry scoring and proportional assessment.
- Designed and implemented the full user interface using Tkinter, enabling real-time feedback and result display.

LEADERSHIP & EXPERIENCE

Founding Member & Social Media Lead – Simbha Kunj Foundation (NGO)

Feb 2021 – Present | Kanpur

- Co-founded an NGO focused on animal welfare and student support, growing the organization from the ground up.
- Led social media strategy and content planning, significantly increasing community outreach and online engagement.
- Organized awareness campaigns and coordinated volunteers across multiple community initiatives.

Social & Outreach Head – YouTube Channel

2023 – 2024

- Drove audience growth strategy and content positioning as a core team member, contributing to measurable improvement in viewer engagement and channel reach.

Independent Business Exploration – E-Commerce & Dropshipping

2024 – 2025

- Independently explored dropshipping and e-commerce — built working knowledge of product sourcing, digital marketing funnels, and customer acquisition strategies.
- Applied data-driven thinking to analyse sales performance and iterate on marketing approaches.

ACHIEVEMENTS

- Qualified JEE Mains (2024 & 2025)
- Appeared for JEE Advanced (2024 & 2025)
- SOF Olympiads (Class 11) — English: International Rank 240 | Science: Rank 1084 | Mathematics: Rank 3872

INTERESTS

Quantitative Finance, Financial Modeling, Physics (Quantum Mechanics, Electromagnetism), Business Strategy & Consulting, Philosophy, Literature
